

Amendments to the Specification

Please replace the following paragraphs:

[0046] Spiral conductive pattern 510 and interface 502 are both disposed on first surface 530. Interface 502 includes a first terminal 504 and a second terminal 506. Spiral conductive pattern 510 is electrically coupled to second terminal 506 and continuing interconnection 514. Terminals 504 ~~502~~ and 506 ~~504~~, as well as conductive pattern 510 include conductive material(s) that are disposed on surface 530 through a printing process.
